### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthony Palagonia on August 28, 2008.

The application has been amended as follows:

Claim 1, replace the paragraph:

“aligning said outer set of magnets under said outer pole extender and aligning said inner set of magnets under said inner pole extender, an axis passing through a geometric center of said sputter target assembly co-axially aligned with an axis passing through said geometric center of said mounting plate, second poles of each magnet of said outer set of magnetic positioned facing said outer pole extender and first poles of each magnet of said inner set of magnetic positioned facing said inner pole extender; and”

with the paragraph:

“initially aligning a first magnet of said outer set of magnets under said outer pole extender and a second magnet of said outer set of magnets under said inner pole extender and aligning a third magnet of said inner set of magnets under said inner pole extender, said first, second and third magnets arranged in a straight line, an axis passing through a geometric center of the sputter target assembly co-axially aligned

Art Unit: 1795

with a center of rotation of said mounting plate, a center of said mounting plate offset horizontally from said center of rotation, second poles of each magnet of said outer set of magnets positioned facing said outer pole extender and first poles of each magnet of said inner set of magnets positioned facing said inner pole extender; and"

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach the pole extenders utilized in combination with the alignment and rotation of the magnets.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney G. McDonald whose telephone number is 571-272-1340. The examiner can normally be reached on M-Th with every Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on 571-272-1342. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
